**Subject:** Information on methyl bromide residential registrations

::  
,,  
Hi-

I have been looking at OPPIN to try to find out the date of the last cancellation of methyl bromide use within peoples' homes. The latest I found was (Metabrom 99, #8622-17) which was registered in 2010 and cancelled in 2011. However, I don't see any similar use on the label other than greenhouses.

M-B-R 98 actually did have residential structure use (#3377-7), and OPPIN has it as being canceled in 2009.

There were many canceled earlier, mainly in the 1980s.

Please let me know what other information I can find for you.

Kevin Costello
